20810	FOI Request	Klebsiella pneumoniae (J578)	The Christie NHS Foundation Trust is a specialist oncology hospital and we do not have an internal microbiology service, this service is provided by another Trust. We therefore do not hold the information requested.	14 Dec 2016	06 Jan 2017
-------	-------------	------------------------------	---	-------------	-------------

In the 12 months ending 31 October 2016, what was:

1. The number of patients who had a blood culture positive for Klebsiella pneumoniae (Group A)
2. In Group A, the number of patients who had a blood culture positive for Klebsiella pneumoniae, with the organism found to be resistant to meropenem, resistant to ertapenem, OR reported positive for a carbapenemase (Group "CRKPb").
3. In Group A, the number of patients who had a blood culture positive for Klebsiella pneumoniae, with the organism NEITHER found to be resistant to meropenem, NOR resistant to ertapenem, NOR reported positive for a carbapenemase (Group "CSKPb").
4. Within Group CRKPb, the percentage of patients who had died in the period between the specimen date of the first blood culture that became positive for Klebsiella pneumoniae found to be resistant to meropenem, resistant to ertapenem, OR reported positive for a carbapenemase, and 6 days after the specimen date.
5. Within Group CRKPb, the percentage of patients who had died in the period between the specimen date of the first blood culture that became positive for Klebsiella pneumoniae found to be resistant to meropenem, resistant to ertapenem, OR reported positive for a carbapenemase, and 30 days after the specimen date.
6. Within Group CSKPb, the percentage of patients who had died in the period between the specimen date of the first blood culture that became positive for Klebsiella pneumoniae NEITHER found to be resistant to meropenem, NOR resistant to ertapenem, NOR reported positive for a carbapenemase, and 6 days after the specimen date.
7. Within Group CSKPb, the percentage of patients who had died in the period between the specimen date of the first blood culture that became positive for Klebsiella pneumoniae NEITHER found to be resistant to meropenem, NOR resistant to ertapenem, NOR reported positive for a carbapenemase, and 30 days after the specimen date."

Please provide answers on the same questions for the 12 months period ending 31 October 2015.

The microbiology laboratory information system should be able to provide the answers on questions 1, 2, 3, including the patient identifier and the specimen date of the relevant blood culture.

The hospital information department, provided by the microbiology department with the data retrieved for questions 2 and 3 including patient identifier and specimen date, and with access to the hospital information system that records demographic details such as date of death, should be able to provide the answers on questions 4, 5, 6, and 7.

Since only numbers and percentages are required for the final FOI report, patient confidentiality is not an issue, since patients cannot be identified from these numbers or percentages.

21083	FOI Request	Orthotics Service	Request closed as not applicable to the Trust.	13 Jan 2017	13 Jan 2017
-------	-------------	-------------------	--	-------------	-------------

Dear Information officer,

My name is Nachiappan Chockalingam and as a part of my wider research, my team and I are looking at current provision of Orthotic Services within the United Kingdom.

We are making a Freedom of Information (FOI) request with a view to gain an understanding of the current NHS provision in this area. We have enclosed a questionnaire for you to complete.

To make it easier for you to collate the information, we have grouped the questions into the following areas: Finance, Service provision, Staffing, Complaints, Outcome measures and Key Performance indicators.

Needless to say that the information you provide will not only help us in analysing the current provision but will help in making recommendations for improvement.

Once completed please send the questionnaire back to:

Professor Nachiappan Chockalingam
School of Life Sciences and Education
Staffordshire University
Leek Road
Stoke on Trent ST4 2DF

If you prefer to scan and send it please email it to: n.chockalingam@staffs.ac.uk

To make the process easier, we have attached a .doc version and .pdf version for you to work on.

Thanks for your help in advance,

Sincerely Yours,
Nachiappan Chockalingam.

For the purposes of clarification I understand the term "dummy appointments" to mean dummy clinic slots made available to patients booking via the NHS e-referral services. The appointments do not exist and the patient should not attend. I believe that these slots allow hospitals to view patient's clinical details and then transfer patients to an internal administration system.

If there is any confusion about the term "dummy appointment" please do not hesitate to get in touch. You can find the term referred to in this NHS Digital document http://content.digital.nhs.uk/media/17199/Best-Practice-Guidelines-for-Commissioners/pdf/NHS_e-Referral_Service_Commissioner_Best_Practice_Guidance.pdf

Please find my questions below:

Could you kindly inform me, for each calendar year since 2010;

1. How many cyber attacks the hospital has had?
2. How many cyber attacks have resulted in the hospital paying a monetary ransom, and how much was paid in each situation?

Could I have these details broken down into the type of cyber security threat, whether it was a deliberate attack, if a monetary ransom was demanded, and if so how much each ransom was for, whether it was paid fully, partly or not at all, the date this happened for each calendar year since 2010, and any other details or comments that you think may be useful.
