Date 4th May 2017

Dear Mr Sinclair

HEALTH AND SAFETY AT WORK ETC ACT 1974

I visited your premises on 27th April 2017 to assess how well you progressing with the recommendations in my Notification of Contravention of 25th January 2017. Overall I am satisfied with the progress made towards your action plan and can see that significant time and effort has been given to rectify the breaches identified in my Notification of Contravention. Nevertheless, I would like to be kept informed as to further progress against your action plan and will also be asking for supporting documentation (such as copies of monitoring records, copies of H&S meetings/walk-rounds, etc) to check that these have been (and continue to be) actioned.

Additionally, some concern was expressed by your employees that some of the recommendations on my Notification of Contravention have been implemented by your Capital, Estates and Facilities Department (such as employee consultation) but had not been implemented throughout the Trust. As such, it is recommended that you should review any advice or recommendations given by HSE to determine whether they should be implemented across the Trust.

Section 28(8) of the Health and Safety at Work etc. Act 1974 requires me to give information to your employees about matters affecting their health and safety. As such, please could you pass a copy of this letter to one of your employee representatives and place a copy in a prominent place for your employees to see?

If you require further information or advice please visit HSE's website or contact me.

Yours sincerely,

Caroline Shorrock
HM Inspector of Health and Safety
