This is a request under the freedom of information act. I'm trying to establish the extent of disruptions to elective care from cancelled operations and other appointments as part of a response to this winter's pressures.

The National Emergency Preparedness Panel warned on 22 December that non-urgent operations should be cancelled, with a further update on 2 January advising that “day case and outpatient procedures” should also be put on hold to preserve emergency care.

Could the trust please provide the following details about cancellations for non-clinical reasons, and last minute (on the scheduled day of arrival at hospital or later) non-clinical cancellations.

December 2016/17 January 2016/17 December 2017/18 January 2017/18

How many of the total cancellations were given a new date within 28 days?
